

# HEAVY HAIL STORM CAUSES DAMAGE TO CORN IN VICINITY

## CORN CROPS WIPED OUT IN SOME PLACES

**Hail Pelts Down Saturday Evening  
Near Gull River, Six Mile Square  
Area, Leaving Stubble**

**Hail also Fell in Crow Wing Township Six  
Miles Southwest of Brainerd, Much  
Damage Done**

Heavy hail storms doing much damage to corn raged Saturday evening.

One of the most destructive is reported from the vicinity of Gull River west of Brainerd where in an area six miles square extending from R. R. Livingston's farm to Gust King's place the corn was pounded to a pulp and nothing but short stubble remains.

Ed Sargent was driving his truck near Livingston's place at the time and ran for shelter. Half his truck projected out in the storm and was filled six inches deep with ice. Some of the hail stones were reported as big as hens' eggs.

Hail also fell in Crow Wing township six miles southwest of Brainerd and damaged corn considerably but not as badly as the Gull River country.

Hail fell at Hubert and in vicinity there and did considerable damage to crops. Roads were flooded. Some rural lines suffered interruption of telephone service.

The storms lasted but a short time and were followed by clear weather. In Brainerd there was no hail, the rain fall being .16 inches.

## Heavy Damage to Shipping

(By United Press)  
New York, August 20.—Two steamers and ten vessels were seriously damaged by fire the property loss reaching \$1,000,000, the fire following two explosions. One of the vessels carried six naval guns and the ammunition on board was thrown over to avoid a more serious explosion.

## Hogs go to \$19.50 on Chicago Market

(By United Press)  
Chicago, Aug. 20.—Hogs are up 50 cents, selling on the market for \$19.50 per hundred.

## LAKE BOATS FOR ATLANTIC Freighters to Be Used in Coast and Ocean Traffic.

Cleveland, Aug. 20.—A representative of the United States shipping board is in Cleveland definitely initiating the government's plans to commandeer lake freighters for coastwise and transoceanic war trade.

The plan is to take every boat possible of passing through the Welland canal, and thence through the St. Lawrence river to the Atlantic, before lake traffic is icebound.

The shipping board is now making a list of boats under 250 feet in length and forty-three feet beam which can pass through the Welland canal without alteration.

Boats up to 520 feet in length and not more than forty-three feet beam will be cut in two, bulkheaded and towed by tugs through the canal and river.

**Former Cabinet Aide Dies.**  
Newport, R. I., Aug. 20.—George L. Rives of New York, formerly assistant secretary of state and at one time corporation counsel of New York city, died here after a long illness. He was sixty-eight years old.

## Seizure Illinois Coal Mines by Federal Agencies

(By United Press)  
Chicago, August 20.—The seizure of the Illinois coal mines by federal agencies or federal and state authorities acting jointly is believed will take place as the next step, the general belief being that the president will not seize the mines but will inaugurate sweeping regulations which will amount to the same thing.

## Coal Dictator Named by Wilson within 24 Hours

(By United Press)  
Washington, Aug. 20.—A coal dictator will be named by President Wilson within 24 hours, officials say. The coal operators asked that a committee of three be named and were told that a dictator with sole responsibility would be named. W. C. Colver, of St. Paul, a member of the federal trade commission is wanted by the coal miners.

## Railroads to Add 15c Ton

(By United Press)  
St. Paul, Aug. 20.—The state railroad and warehouse commission is expected to issue orders late today permitting the railroads of Minnesota to add 15 cents per ton to freight charges.

## Firemen and Police are Not Exempt

(By United Press)  
Washington, Aug. 20.—Secretary Baker has announced that the rule cannot be construed to make a general exemption for firemen and policemen.

## No Exemption Claims Made

(By United Press)  
Pittsburgh, Aug. 20.—No claims for exemption from the draft of any employee is the announcement made by the Pennsylvania road.

## Occupy Ridge Without Fight

(By United Press)  
Berlin, Aug. 20.—The occupation of Talou Ridge without fight is officially announced, and also that violent French assaults are in progress on the front for more than 14 miles. On the Russian front at the west bank of the Serth and Narazli railway station 2,200 prisoners were captured.

## COUNT VON BERNSTORFF.

Has Been Appointed German Ambassador to Turkey.

Photo by American Press Association.

Count von Bernstorff, the former German ambassador to the United States, has been appointed, according to the Berlin Vossische Zeitung, to the post at Constantinople. He will leave Berlin immediately.

## Will Make Navy Foremost in Destroyer Force

(By United Press)  
Washington, Aug. 20.—The attempt will be made to place the American navy in the foremost place in destroyer force and accordingly Secretary Daniels has gathered representatives of 35 firms to study means of more than doubling the destroyer contracts and if successful the United States will have more destroyers than any nation.

## Sammies are Progressing Satisfactorily

(By United Press)  
New York, August 20.—With the American Expeditionary Army in France, General Pershing thinks the American troops are progressing satisfactorily with their battle training, this statement coming following a surprise inspection.

## Italy Waging Strong Offensive Against the Austrian Lines

(By United Press)  
Rome, August 20.—Italy is waging a determined offensive against the Austrian lines from the Adriatic to the Alps, the blow being probably the hardest the Italians have yet struck. Assaults being launched at Carron, Insonzo and Julian fronts simultaneously, the troops working in such concert as to weld the three attacks in one giant effort. The Italian attack covers a 90 mile front. Italy's drive carried Gen. Cadorna's troops across the Senzo river north of Anhofo into the Austrian front line trenches from Pieve clear to the sea, the official reports announcing the victory and declared 7,500 prisoners were taken.

## Push Back the German Line by Sheer Weight

(By United Press)  
London, Aug. 20.—By sheer weight of steel the British forces continued to push back the German line in the Ypres-Poelkapelle section. A new device which greatly aided the drive was tanks equipped with smoke contrivances permitting the progress of troops enveloped in a fog preventing their location from the air and saved them from the artillery. The German losses were heavy while the British escaped with slight casualties.

## Terrific Battle Reaching Climax

(By United Press)  
Paris, Aug. 20.—An official statement says that a terrific battle is reaching the climax around bloody ground near Verdun has developed in favor of the French over a 12-mile front extending from Avocourt to Bozonvaux.

## Steamship Sunk in Mediterranean Passengers Saved

(By United Press)  
An Atlantic Port, August 20.—The sinking of the British steamship Mooltan by a German torpedo in the Mediterranean is reported, the passengers reaching port. One man, the steward, was drowned.

## GRAND DUKE MICHAEL.

Rejects Suggestion That He Go to England to Live.

Grand Duke Michael of Russia has rejected the suggestion that he go to England to live, declaring he could not leave Russia until the constituent assembly has determined the future form of government.

It will be remembered that Grand Duke Michael made at the beginning of the revolution a provisional renunciation of his claim to imperial succession, declaring he will only accept the throne if called by the people.

## Western I. W. W.'s Stage General Strike 2,000 Men are Out

(By United Press)  
Spokane, Wash., Aug. 20.—The I. W. W. in Washington, Oregon and Idaho have staged a general strike with the result that the governors of four states are refusing the release of war prisoners. The reports indicate that not over 2,000 men in four states are out.

## Will See President

(By United Press)  
Washington, Aug. 20.—Thomas A. Edison is scheduled to see President Wilson late this afternoon, there being no hint as to the nature of his visit.

## VOLUNTEERS UNDER SHERIFF'S ORDERS

**Posses to be Formed Acting with  
Cooperation of Automobile Squad  
Asked by Safety Commission**

**Applications will be Received by Representa-  
tative Hilding A. Swanson, Men to  
Act Without Pay**

## First Official Expression Pope's Plan Tomorrow

(By United Press)  
Amsterdam, Aug. 20.—The first official expression on the pope's peace plan is expected from Germany tomorrow when the main committee of the reichstag meets to discuss the general internal and external conditions. A lively discussion of the German situation is the forecast in the committee and the speech of the chancellor is expected to picture Germany as unshakable.

## Pope Interested World's Attitude Toward Peace Plan

(By United Press)  
Rome, Aug. 20.—The pope is now interested in the attitude of the world toward his peace plan, and which has overturned the vatican routine. He rises an hour earlier and reads the press comments.

## Thanks His Men Preventing Break Through Lines

(By United Press)  
Amsterdam, Aug. 20.—Kaiser Wilhelm expressed formal thanks to the German navy for preventing the enemy breaking through the Flanders front at the recent inspection of the German base at Heligoland.

## WHEAT CROP SHORT 400,000,000 BUSHELS

Washington, Aug. 17.—North America's 1917 wheat crop will not come within 400,000,000 bushels of supplying the shortage of European allies and neutrals, Herbert C. Hoover announced for the federal food bureau. As a partial remedy he suggested that every person in the United States use one pound less wheat flour per week—a reduction of 20 per cent, in present consumption.

Substitute other cereals, corn, oats, barley and rye, he says. The bureau suggested that this conservation will be no privation to us.

The estimate of the shortage is based on normal consumption in a three-year war period.

France, Italy and the United Kingdom import 577,000,000 bushels of wheat and 674,000,000 of other cereals if normal consumption requirements are to be met, it was announced.

To meet this 577,000,000 wheat shortage the United States will have 38,000,000 and Canada 120,000,000 bushels, leaving an actual shortage to our European allies of 369,000,000 bushels of wheat.

The bureau estimates that wheat to neutrals and enough for seed will bring the shortage to 400,000,000 bushels.

An excess of other cereals, Hoover estimated, will be sufficient to make Europe's war bread and also make America's and Canada's war bread.

To Representative Hilding A. Swanson has been assigned the task of gaining applications for a volunteer association to operate under the sheriff's direction.

The letter as addressed to Sheriff Claus A. Theorin by John S. Pardee, secretary of the Minnesota Commission of Public Safety, reads:

August 4, 1917.  
To the Sheriff,  
Dear Sir:

Governor Burnquist directs me to call your attention to the resolution of the Commission providing for volunteer organizations under the sheriff.

These volunteer bodies should be so formed that you will be able to call upon any community in your county for a body of men, ready and able instantly to respond whenever the peace of the neighborhood is threatened.

In organizing these volunteers you will have the cooperation of the county director, representing the commission in your county, and of mayors and other municipal authorities.

You will proceed at once with such arrangements. As soon as these squads are organized you should obtain the cooperation of the automobile owners and arrange with them to have cars always ready when needed.

Your other arrangements should be so carried out that when an alarm is given every man will know where to report, each man will be assigned in advance to a car, the car will be at hand at an appointed station and your posse can get under way at the earliest possible instant.

With such force at your disposal, and with the vagrancy ordinance in force in the several municipalities, your community will have absolute protection from any danger that can threaten it from without.

Each squad should be under a deputy, who may be called a civil sergeant, who should serve without pay in emergency, as will other volunteers, and he will be subject with the others, to your call and to your orders as peace officer.

Each squad will arm itself under your direction—it will not be necessary to purchase arms or equipment for the members. The ordinary fire arms, which so many of your citizens already own, will be sufficient for any purposes where arms may be needed.

The governor instructs you to give this matter your immediate attention. Very respectfully,  
JOHN S. PARDEE,  
Secretary.

## SENDS SURGICAL SUPPLIES

American Red Cross Furnishing Aid for Russian Armies.

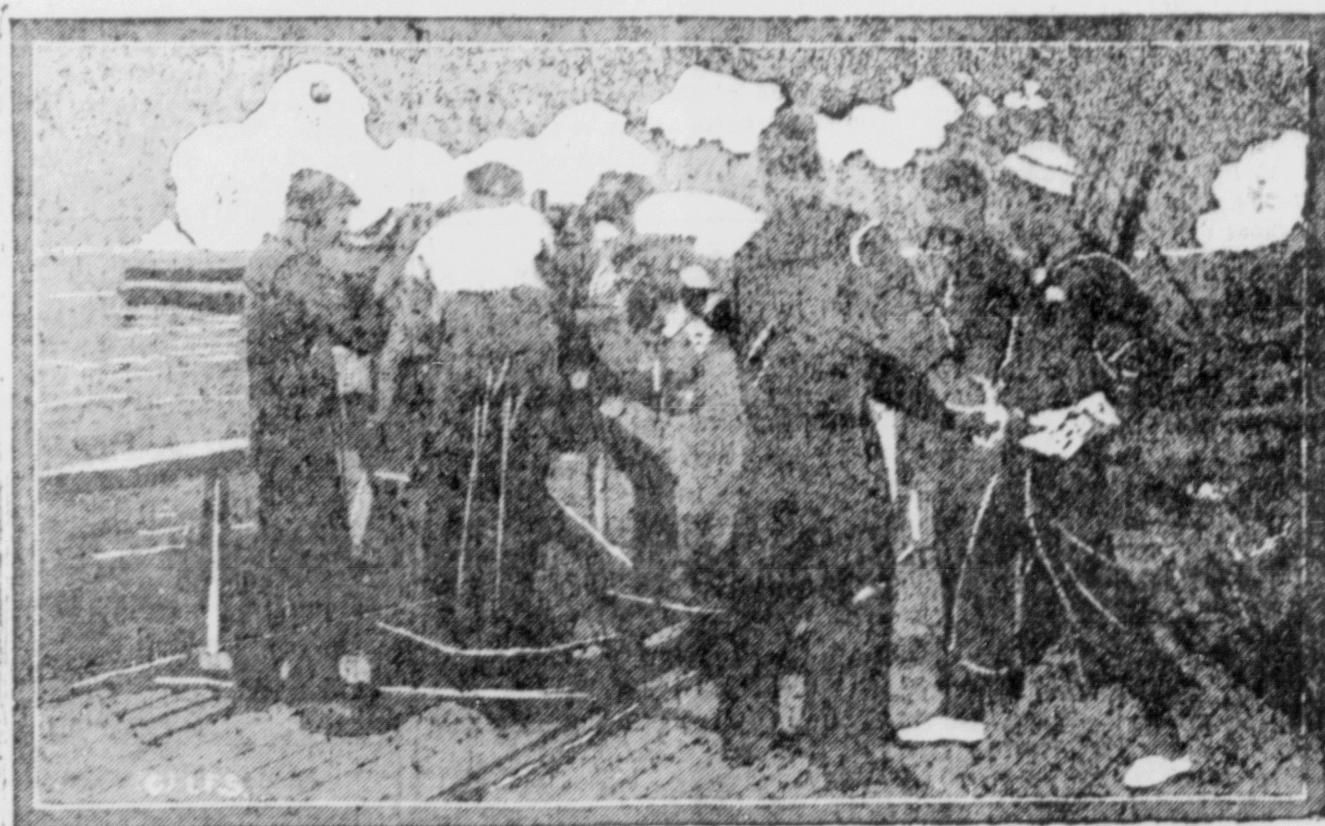

Washington, Aug. 20.—In response to an urgent request from Dr. Frank Billings, head of the Red Cross commission to Russia, the American Red Cross is sending a large quantity of medical and surgical supplies to meet the urgent needs of the Russian military hospitals. This supplements an earlier consignment which was forwarded for immediate use when the commission sailed to investigate the Russian situation.

The commission carried with it 200,000 worth of such material. Russia has had great difficulty in securing enough hospital equipment and supplies to take proper care of her large armies.

## General Crowder Injured.

Frederick City, Mo., Aug. 20.—Pro-vost Marshal General E. H. Crowder was cut and bruised about the face when he was tossed against the top of his automobile as the machine was swung abruptly to the side of the road in an effort to avoid an obstruction. The general's eyeglasses were shattered, the fragments lacerating his nose.

## Gunners on American Expedition to France Firing on Submarines

This photograph shows American gunners on a transport in Admiral Gleaves's command, the first expedition to France, firing on German submarines June 26. The photograph was taken from the upper deck of a transport while the firing went on. Admiral Gleaves in his report to the Navy Department said his ships were attacked June 26 and 28 far out in the ocean.

**WAREHOUSE FOR POTATOES**

Additional Storage Room Needed in Brainerd if Large Crop is to be Handled Well

**THE NETTLETON MARKET PLAN**

City Council, Chamber of Commerce, County Commissioners, Federated Farmers Clubs Represented

Complying with a request made by R. R. Wise, director of the Public Safety commission for Crow Wing county, a special committee has been investigating conditions in relation to the amount of potatoes and farm products likely to be shipped from this locality this fall, providing adequate means for handling the same are furnished and the matter will be one of the important ones to be discussed at the meeting of the Chamber of Commerce Wednesday evening, the regular meeting date of the organization.

A Potato Warehouse Correspondence has been had with reputable commission houses in other cities with an idea of interesting them in locating a produce house in Brainerd which could handle all perishables in an intelligent manner and at their own expense and it seems probable that a potato warehouse will be established here this fall as the beginning of a general produce house for handling farm products.

That such a warehouse is needed is certain, judging from inquiries made by the county agent and reports turned in to the Chamber of Commerce and the matter has been under consideration for some time with an idea of obtaining the sentiment of the farmers on the subject and being prepared to handle the crop this fall.

Nettleton Market Plan P. B. Nettleton chairman of a special committee of the Chamber named to formulate a plan for a public market here, an idea first suggested by him, has been busy and will make a report to the Chamber Wednesday evening. Special committees from the council, farm federation, county commissioners, Chamber of Commerce and Business Men's association have been named to confer with Mr. Nettleton on this subject and his report should be interesting to every business man, farmer and resident of the city generally. Members are urged to be present at the meeting Wednesday evening at 8:30, following the advisory board meeting, when a free discussion of this matter will come up and definite action be decided upon.

**TRUE GREATNESS.**

True greatness first of all is a thing of the heart. It is all alive with robust and generous sympathies. It is neither behind its age nor too far before it. It is up with its age and ahead of it only just so far as to be able to lead its march. It cannot slumber, for activity is a necessity of its existence. It is no reservoir, but a fountain.—Roswell D. Hitchcock.

**Dr. M. F. Egan Operated On.**

**HOW TO SAVE LIVESTOCK**

Vital Problem Brought Up in the Drouth Sections.

Prepared by the Markets Division of State Committee of Food Production and Conservation.

A mighty effort will be made to prevent the slaughter of breeding cattle and other livestock this fall. Ways and means for this prevention were discussed a few days ago at a meeting of the Markets Division of the State Committee of Food Production and Conservation with a group of men from the South St. Paul Stockyards and from the farms of Minnesota.

The situation is really very grave. The drouth in parts of Northern Minnesota, in North Dakota, and in Montana is already sending large numbers of cattle to the stockyards. The farmers shipping it simply cannot hold it because they have no feed.

Two methods have been suggested: Urging the farmers in regions where there is a supply of forage to keep their fodder and buy more cattle, thus saving at least a part of the cattle from the block; persuading the railroads to grant special tariffs on forage, in order that supplies may be shipped to farmers having cattle but no feed.

In this connection the utmost need of saving every ounce of straw in the state and in the Northwest was urged.

Savage, but Sensible. The Jannamadi tribe of the Amazon region has a physical test for marriage for men which might be introduced with profit to the race into civilized society. The prospective bridegroom must first get consent from his parents, from the girl and her parents and from the chief. Then on the morning of the wedding after he has had his bath in the river he is taken by the chief to a heavy log. The young buck must carry this log on his shoulders a fixed distance. If he is unable to do so he is not allowed to marry. In this way inherited weaknesses and physical defects are eliminated, and a strong, vigorous race is the result.—New York Sun.

In the old sepulchers at Thebes, Egypt, butchers are represented as sharpening their knives on a round of metal attached to their aprons which from its blue color is supposed to be iron.

**Try Jiffy-Jell Now**

This rare-grade gelatine dessert, flavored with pure fruit juice, will take the place of fresh fruit desserts. Also Mint Jiffy-Jell for mint sauce and salads.

### WOMAN'S REALM

#### CABLED APPEAL FOR SUPPLIES

Wanted—at once, 500 women in Brainerd to knit for the Red Cross. Five hundred articles are asked of Brainerd to be finished by the first of October. Many women and young girls will be anxious to help who do not know how to knit. Opportunity will be given them at the headquarters to learn, as some of the articles asked for are simple and suited to the ability of beginners. Forty have volunteered already but it is hoped four hundred and sixty more will stop at the headquarters afternoons of this week and register. At two o'clock tomorrow afternoon there will be a young girls class under the direction of Mrs. Mons Mahlum and Mrs. J. P. Anderson. All Brainerd young girls are invited to join.

Anyone in Brainerd having coarse knitting needles not in use is asked to contribute them to the Red Cross. The Brainerd Chapter which covers all of Crow Wing county is asked for one thousand articles of which Brainerd's share is five hundred.

A cabled appeal for the immediate shipment of supplies to France reached the American Red Cross from Major Grayson M.-P. Murphy today. Major Murphy, as the head of the Red Cross Commission in France, has been making a survey of conditions in the war zone and the districts which harbor refugees. The cable received today emphasizes the urgent need in Europe for vast amounts of hospital and knitting supplies.

Major Murphy cables: "Begin shipping at once one and a half million each knitted mufflers, sweaters, socks and wristlets. These are desperately needed before cold weather. In view of the shortage of fuel and other discomforts they will be of incredible value in both military and civilian work."

"Last winter broke the record for cold and misery among the people here. They unexpressly dread lest the coming winter find us without supplies to meet the situation. I urge you on behalf of our soldiers and those of our allies who will suffer in the frozen trenches. Thousands of Belgian and French refugees and repatriates are being returned through Switzerland to France."

The Woman's Bureau of the Red Cross, under the direction of Miss Florence M. Marshall, has prepared directions with complete information as to the knitted articles asked for by Major Murphy. The circular which will be available to any woman who applies to the nearest Red Cross chapter, tells exactly how to obtain yarn, detailed knitting instructions, and where to send the garments for immediate shipment to France.

That the work should go forward as rapidly as possible, and with no

chance of "falling down", an allotment of the great task is being made by the national authorities to the thirteen division managers of the Red Cross who direct its administration under the new decentralization plan.

The division managers, when they have been informed of their territory's total share, will divide the work among the chapters in their divisions. The allotment system follows the general spirit of the Liberty Loan and the Draft Army. Each section of the country will have its specified part to do. Every chapter will know the number of woolen sweaters and other articles that must be knitted by the women whose willingness to serve has been registered with them. The work must be done with all possible speed. Finished articles will be shipped from the chapters to the nearest point of transoceanic shipment under national directions.

The Brainerd chapter, which includes Crow Wing county, has been notified that it is expected to supply 250 sweaters, 250 mufflers, 250 wristlets and 250 pair socks.

#### NIECE OF GEN. BLOXAM

Miss Virginia Glass, of San Antonio, Texas, Guest of Capt. and Mrs. R. J. Sewall

Miss Virginia Glass, niece of Gen. Bloxam, in charge of the Southern division and with headquarters at San Antonio, Texas, is a guest of Capt. and Mrs. R. J. Sewall at Crosby Dr. G. A. Beaudoux, classmate of Capt. Sewall, also arrived in Brainerd and joined the automobile party for a tour of the Cuyuna iron range. While at the border Dr. Beaudoux operated on Dr. Sewall for an infection of the cheek and the latter is now slowly recovering.

#### Marriage Licenses

Aug. 18—Ludwig K. Nesheim and Hatty May Gorton.

Aug. 18—George Edward Wolhart and Margaret Ellen Gordon.

Aug. 18—Werner F. Cain and Etta M. Finn.

Aug. 18—Lawrence O'Toole and Florence Snell.

#### Dinner Party

Mr. and Mrs. O. B. Johnson entertained at dinner on Sunday in honor of Mr. and Mrs. George Anderson, of Madison, Wis. The table decorations were sweet peas and ferns and covers were laid for eight.

#### Willing Helpers

The Willing Helpers society of the Swedish Baptist church will meet at Lum park Tuesday evening. There will be a program and refreshments will be served. Those wishing to attend are requested to meet at the church, corner Oak and Tenth streets. The bus will be there sharp 7:30 o'clock. Visitors are welcome.

#### WISH TO GO TO SCHOOL

Girls Willing to Work for Board if Able to Attend Schools in Brainerd, Notify Superintendent

There are earnest, reliable girls willing to work for their board in Brainerd. Supt. W. C. Cobb has a list of several out of town girls making such application for work and will be glad to hear of people who need help.

#### Cain-Finn

Saturday evening at 8 o'clock at the Methodist parsonage occurred a pleasing event when Werner F. Cain, son of Mr. and Mrs. John M. Cain of Brainerd and Miss Etta M. Finn, daughter of Mr. and Mrs. B. A. Finn, were united in the holy bonds of matrimony. Rev. F. W. Hill, pastor of the Brainerd Methodist church, officiating.

The wedding service was simple but impressive, the only witnesses being the father of the groom and the pastor's wife. The young couple will make their home for the present with the groom's parents. The best wishes of many friends go with them as they start out on life's journey together.

#### Are You Lucky?

In August the air is full of pollen and dust that cause trouble for some, yet others are never bothered. No remedy does more to relieve hay fever and asthma than Foley's Honey and Tar Compound for coughs, colds and croup. It clears and soothes the afflicted nose, throat and bronchial tubes. H. P. Dunn, druggist.—Adv. mwf

#### SOLDIERS RAID I. W. W. HALL

Drag Out Literature and Papers and Make Bonfire.

Duluth, Aug. 20.—Enraged over the stabbing of a soldier by an alleged I. W. W., after the guardsman resented derogatory remarks about the government, members of the Third Minnesota regiment raided and demolished I. W. W. headquarters in a downtown building.

Six I. W. W. were reported beaten. The soldiers then proceeded to a district occupied chiefly by Finnish Socialists and after several scuffles between individuals and soldiers the latter dispersed.

The raid on the headquarters of the I. W. W. occurred without a moment's warning. After the hall was emptied the soldiers dragged out all the I. W. W. literature and papers and made a bonfire of them.

#### Tactless.

"Is Mr. Flubdub busy?" asked the diffident customer. "Mr. Flubdub is always busy," replied the pompous attendant. "Well, let him stay busy." And that's how Mr. Flubdub lost a big order.—Louisville Courier-Journal.

The Sequoia and General Grant national parks, in California, contain many of the famous "big trees" (Sequoia gigantea), which grow to a height of 300 feet, with a diameter of thirty feet, the bark being two feet thick.

### Turn This Over and Help to Overturn The Kaiser

Every bushel of potatoes properly stored, every pound of vegetables properly put by for future use, every jar of fruit preserved, add that much to our insurance of victory, add that much to hasten the end of this conflict. To win we must have maximum efficiency in all directions. We cannot win without complete and effective concentration of all our efforts. --- President Wilson.

Save Surplus Fruits, Save Perishable Vegetables, Save the Nation's Food

#### SEVERAL HUNDRED STRIKE

Krupp Workers Resent Arrest of One of Their Leaders.

Amsterdam, Aug. 20.—The Lokal Anzeiger says several hundred workmen, employees in Krupp's Magdeburg plant, have gone on a strike owing to the arrest of one of their leaders.

The workers considered this a disciplinary measure and sent a deputation, headed by the reichstag deputy, Herr Brondes, to the deputy command-in-chief, who informed the deputation that the man under arrest was suspected of high treason because he had distributed a handbill inciting workers to a general strike.

High Prices. In San Francisco in 1849 clerks in stores and offices had munificent salaries. Five dollars a day was the small est stipend even in the custom house and one preacher was paid \$10,000 a year. Laborers received \$1 an hour. A pick or a shovel was worth \$10 and a butcher's knife \$30. At one time the carpenters, who were getting \$12 a day, struck for \$16. But it should be noted that prices were exceedingly high also.

When Youth's Life is Shaped. "The hand that rocks the cradle rules the world?" Nonsense. It only handles the material. The time of the shaping of life is from twelve to eighteen years old. That is the formative period. All great educators know that.

Epistolary Caution. Before the customer paid his bill the hotel stenographer tore several pages out of her notebook and handed them to him.

"Only the notes of his letters," she said to the next customer. "About once in six months somebody comes along who keeps such a watchful eye on his correspondence that he won't even let a stenographer keep his notes. Of course it is nothing to us, and we always give them up when asked to. I don't know what the cautious folk do with them—destroy them, maybe. Anyhow, there is no record of foolish utterances left in the stenographer's books."—New York Times.

The Red, the Blue and White!  
The one Flag—the Great Flag—  
The Flag for me and you—  
Glorified the whole world wide—  
The Red, the White, the Blue!

## GERMAN PARTIES CLASH OVER PEACE

Copenhagen, Aug. 20.—The pope's peace proposal now is being dragged into the field of party politics in Germany and made the subject of contention between the pan-German annexationists and advocates of a moderate peace.

George Bernhard, in the Berlin Vossische Zeitung, says the pope's action has cleared up one of the mysteries connected with Eruberger's recent peace campaign in the reichstag and that the adoption by the reichstag of his resolution was to pave the way for the pope's note.

Vienna dispatches say the government newspapers declare emphatically that it is impossible to cede a foot of soil to Italy, but otherwise little vehement objection to the pope's note is heard in Austria.

Count von Reventlow, in the Tages-Zeitung, continues his cynical discussions of the German policy and says the Germans cannot consent to a reduction in armaments, which alone have made possible the existence of the empire and the possibility of its moral activities.

Count von Reventlow adds that Germany cannot bear her own war burdens and that therefore, she cannot renounce indemnities, and that guarantees for Belgium's independence cannot be found.

## RESIGNS VICE PRESIDENCY

Perry Belmont Gives Reason for Leaving Navy League.

Washington, Aug. 20.—Perry Belmont resigned as a vice president and director of the Navy League.

In a letter to Robert H. Thompson, president of the organization, Mr. Belmont said:

"The good accomplished by the Navy League in the past is beyond question, but its present efforts are jeopardized by persistent disagreements with the official head of the navy in time of war."

## Turks First Banned Tobacco.

Tobacco was first carried into Turkey by English sailors, and its use was quickly prohibited. As in Russia, a tradition was discovered prohibiting its use by the faithful. Mohammed, it was said, had prophesied that in future ages some of his followers would smoke a herb called tobacco, but these would be unbelievers. Sultan Amurath IV, strictly prohibited its use. Search was made for smokers. Tobacco pipes were driven through their cheeks, and rolls of tobacco hung as collars around their necks. Thus arrayed, they were mounted on asses, facing the tail, and driven through the streets, as a warning to lusters after tobacco, to be hanged.

## When His Trouble Comes.

Smith—Do you mean to say you don't have any trouble in keeping your wife dressed in the height of fashion? Wedderburn—That's what I said. My trouble comes when I don't keep her dressed that way.

## Bernstorff to Constantinople.

Berlin, Aug. 18.—The appointment of Count von Bernstorff, former German ambassador to the United States, as German ambassador at Constantinople is forecast. Count von Bernstorff has arrived in Berlin and has been in conference with Imperial Chancellor Michaelis.

## ARMY RECEIVES STRICT ORDERS

Will Arrest I. W. W. Leaders and Other Agitators.

## DISTRICT SECRETARY TAKEN

Drastic Action Is Promised if Property Is Threatened or Industry Affected by Movement in Northwestern States—Industrial Workers Preparing for General Strike.

Spokane, Aug. 20.—General orders have been issued to all military commanders of the Northwest to arrest all I. W. W. and other agitators should property be threatened or industry affected by their movements.

The first exercise of this new authority came here when a company of the Idaho national guard raided I. W. W. headquarters here and arrested James Rowan, district secretary, and twenty-six other alleged members of the organization.

The men are held as military prisoners.

Following the arrests here, telegraphic reports were received from Long Beach, Cal., that eight I. W. W. members were seized by national guardsmen on arrival there.

The California prisoners, most of whom are said to have come from the Jerome and Bisbee districts, are also held under military rule and investigation of possible plots against the nation and industries is under way.

The arrest here was made on the eve of the day on which a strike of agricultural and construction workers in the ranks of the I. W. W. in Washington, Oregon, Idaho and Montana was to have become effective.

Strike orders advising farm workers to "let the fruit rot on the ground" and calling on construction workers to lay down their tools had been signed by Rowan. Lumber workers of the four states already are on strike.

Only a vote of the members of the organization can halt the strike, Rowan said, as there is no one with authority to take such action.

## TROOPS RESTORING ORDER

Great Revolts Take Place in Leading Finland Towns.

London, Aug. 20.—Great revolts have taken place in the leading towns of Finland, according to advices received at Copenhagen through channels opened by the raising of the Russian news embargo on the frontier of Sweden and Finland and wired by the correspondent of the Exchange Telegraph company.

Foodstuffs have been plundered by the Finnish people and the authorities have seized whatever supplies remained.

Public order is being restored in Finland by the arrival of fresh troops.

## GORE OFFERS AMENDMENT

Would Prohibit Sending New Army to France.

Washington, Aug. 20.—An amendment to prevent expending any money raised from the bill in transporting men to Europe who have not volunteered for such service was introduced by Senator Gore. The Oklahoma senator said his object was to conserve American man power. He declared there was no dearth in the man power among the European countries now at war with the central powers.

"What we need most is not men but munitions, arms, weapons and supplies," he said. The amendment was passed over without action.

## ADOLPH GERMER ARRESTED

National Secretary of Socialist Party in the Toils.

Chicago, Aug. 20.—Adolph Germer, national secretary of the Socialist party, recently arrested and later released, was rearrested on a charge of having violated the espionage law by making a public speech against conscription.

His rearrest is said to be the result of a consideration of his case by President Wilson and Attorney General Gregory. The address complained of was delivered by Germer at a mass meeting Aug. 9.

## Bishop of Boise Near Death.

Portland, Ore., Aug. 20.—Right Rev. Alphonsus Josephus Glorieux, the Catholic bishop of Boise, Ida., is gravely ill at a hospital here. Little hope is held for his recovery. He is seventy-three years old. He was brought here for treatment two weeks ago.

## 75 Per Cent War Profit Tax.

Melbourne, Australia.—Special—The house of representatives has passed on second reading the war time profits tax assessment bill, which provides for a tax of 50 per cent for the year ending June, 1916, and 75 per cent thereafter.

## Americans to Train in Cuba.

Washington.—Special—Cuba's offer to provide a mobilization and training ground for some American forces has been accepted.

## Home-Reading Course For Our Citizen-Soldiers

(Issued by the War Department and all rights to reprint reserved)

This course of thirty daily lessons is offered to the men selected for service in the National Army as a practical help in getting started in the right way. It is informal in tone and does not attempt to give binding rules and directions. These are contained in the various manuals and regulations of the United States Army, to which this Course is merely introductory.

### LESSON NO. 6

#### CLEANLINESS IN CAMP

(Preceding Lessons: 1. Your Post of Honor. 2. Making Good as a Soldier. 3. Nine Soldierly Qualities. 4. Getting Ready for Camp. 5. First Days in Camp.)

When large numbers of men are assembled in camp it is necessary for the good of all that strict rules of personal conduct and sanitation should be enforced. These rules are by no means a hardship. They are a protection. By insisting on strict obedience to these rules, the diseases which once took so heavy a toll in nearly all military camps have been brought under control; some have been practically eliminated.

Suppose you were asked to make a choice; either to live under conditions in which small pox, typhoid fever, diarrhoea, dysentery and cholera flourish; or to live under strict regulations, which make these diseases far more of a rarity in military than in civil life. Your good sense would lead you to choose the latter. Bear this in mind. See to it that you cooperate with enthusiasm in the measures that will be taken to keep your camps clean, comfortable and healthful.

One of the pests of camp life, if perfect cleanliness is not observed, is the presence of swarms of flies. Flies are not merely annoying. They are dangerous. Somebody has said, with perhaps a slight exaggeration that soldiers they are more dangerous than bullets. This is because flies carry disease germs. They feed on manure, garbage, uncovered food, human excreta and the like. They also lay their eggs wherever refuse of the same kind is found. The best way to keep flies away from camps is to destroy the places where they breed and feed; in other words, keep the camp spotlessly clean.

For this reason the daily "polishing" (or cleaning up) of the camp is a matter of first importance. You will be required to keep your company street free from even small objects, bits of food, and the like, which might attract flies or other insects. At least once a day a squad will be detailed to inspect and clean every square foot of space in or near your living quarters. This is a duty which an experienced soldier usually performs with more interest and thoroughness than the raw recruit; for he more clearly realizes its importance.

The best safeguards against disease, either in the army or out of it, are soap and sunshine. You will be required to keep everything in the camp well scrubbed and well aired. If it were not required, you would doubtless be anxious to do it, anyway.

The good soldier is almost "fussy" in the care of his person, his clothing,

his bedding and his other belongings. Personal cleanliness includes using only your own linen, toilet articles, cup and mess kit. Many annoying skin troubles and such diseases as colds and infectious fevers are often passed from one person to others by using articles in common.

In the training camp there will be plenty of shower baths, and you will, of course, make free use of them. If in temporary camps or at any other time you cannot obtain a bath, give yourself a good stiff rub with a dry towel. Twice a week, or often if necessary, your shirts, drawers and socks should be washed and fresh underclothes put on. In case it is necessary to sleep in your underwear, as it probably will be, put one aside to wear at night; so that you will always feel fresh and clean in the morning.

The scalp should be thoroughly cleaned about as frequently as the rest of the body. This will be made easier if you keep your hair cut short.

The teeth should be brushed at least once a day; twice a day is better. Neglecting this practice will cause decay of the teeth, resulting in failure to chew food thoroughly and probably ending in stomach troubles.

Cleanliness includes also the practice of emptying your bowels at least once a day. Get into the habit of doing this at a certain time each morning. It is a habit that can be cultivated, just like any other habit. Do not let a little personal inconvenience or laziness stand in the way.

The Medical Corps of the army and your own officers will use every means within their power to safeguard and improve your general health. Within recent years better methods of medical supervision have greatly reduced the losses and the disabilities due to warfare.

The increased power of weapons has been more than met by increased efficiency in maintaining the health of troops and in caring for those who are wounded.

But the responsibility for keeping yourself in good health can not rest wholly upon your officers. Just as in civil life, you are expected to use a reasonable amount of good sense in looking after yourself. You will do this partly because it adds to your own comfort and safety. You will take care of yourself, also because it is a duty that every soldier owes to the country.

You will have plenty of fresh air, exercise and good food, which are after all the chief essentials of good health. It should be a comparatively easy thing for you to look after the smaller things.

## IT WAS A NOISY CARGO.

But It Completely Cured the Skipper of His Fear of U Boats.

A skipper who took a cargo of locomotives across the Atlantic when the U boat warfare was at its worst gave this ringing story of the trip:

"We left Philadelphia with sixty locomotives, all incased in huge wooden boxes, intact and ready to be taken off the ship and placed immediately on the tracks to start dragging ammunition trains to the front.

"The Delaware was as smooth as a pond as we made our way down to the bay, but the first wavelets that struck us at the capes started something that made me want to take a header off the bridge. Every one of the sixty locomotive bells in the hold began to ring! And they all kept ringing all day and all night all the way across the Atlantic.

"At first I thought of going back to dock to have the bells taken off. But that would have amounted virtually to unloading the whole cargo because of the manner in which the locomotives were stowed. It would have meant a week's delay, and I was supposed to get to sea as quickly as possible. So we put out that night with those sixty mad bells going hammer and tongs continuously.

"I thought we would all lose our senses. Sleep was out of the question. It was like ringing 'eight bells' eighty times a minute in sixty different keys. You've seen Sir Henry Irving in the play 'The Bells'? Well, it was like that, only this was no play, but real life. It seemed, as one member of the crew who is by far too imaginative said, as if the ghosts of all the murdered ships were clanging up at us out of the depths of the ocean, warning us

of the U boats that had littered the sea floors with their bones.

"We fell in with some nasty weather as we neared the other side. The vessel rocked and tossed, and every time she plunged a whole cataract of bells went tearing down toward perdition. 'We're in the U boat zone,' remarked the man at the wheel to me one night. 'Good!' I cried. 'I hope a torpedo hits us soon. Then perhaps I'll get some sleep.'

"The destroyers that met us didn't know what to make of us. They thought we had all gone crazy drunk and were trying to tell the U boats exactly where we were. But I told them I was cured of the fear of U boats forever."—Philadelphia Ledger.

### To Be Kept Mum.

"That was a homely woman I saw you with last night."

"Don't tell my wife."

"She didn't know about it, eh?"

"Oh, yes; she was the woman."—Boston Transcript.

Head Barber—Have you any particular choice in shaving mugs? First Assistant—Not a bit. I shave them all.—Puck.

## FORMER CZAR IS SENT TO SIBERIA

Occupies Governor's Palace Under Heavy Guard.

## WIFE AND FAMILY WITH HIM

Official Announcement at Petrograd Says That for Reasons of State the Government Decided to Transfer Their Prisoners to Tobolsk.

Petrograd, Aug. 20.—It was officially announced for the first time that the new residence of Nicholas Romanoff, the deposed Russian emperor, is at Tobolsk, a western Siberia town which recently achieved a dubious publicity in revolutionary Russia as the birthplace of Gregory Rasputin, the mystic monk, who wielded a remarkable influence of the former emperor's family up to the time of the priest's assassination in Petrograd last December. The official announcement says:

"Owing to reasons of state the government decided to transfer to a new residence the former emperor and empress, who are detained under guard. The place selected was Tobolsk, where they were taken after requisite measures to insure their safety. With them went of their own free will their children and certain of their entourage."

According to some newspapers the former imperial family will live permanently in the former governor's palace at Tobolsk, which is a large house without modern improvements, built in the eighteenth century for a local speculator.

Nicholas spent one night there in 1891 when returning from his visit to the Far East.

Other newspapers say the former emperor will stay at the former governor's palace only one week and then will be sent to the Apalatsk monastery in a forest twenty miles outside of the town.

## BANS DISLOYAL MEETINGS

Minnesota Governor Fears Bloodshed May Be Outcome.

St. Paul, Aug. 20.—Declaring that bloodshed and loss of life would result from continuance of anti-American demonstrations, Governor Burnquist indicated that no more anti-draft and other like protest meetings will be permitted in Minnesota.

Governor Burnquist's order was in accord with the declaration he made in speeches Friday night at the big loyalty demonstration in Minneapolis.

It followed also an informal ruling by Attorney General Lyndon A. Smith before the conference of sheriffs Wednesday at the capitol that adverse criticism of the government at this time is likely to provoke rioting and for that reason anti-draft and other protest meetings should be regarded as incipient riots and dealt with accordingly.

### Good Gifts.

The blessedness of giving is not limited to checks and bank bills. There are gifts that far transcend these—gifts of patience, sympathy, thought and counsel, and these are gifts that the poorest can give.—Lillian Whiting.

## SEN. GEO. GARDNER FOR PUBLIC MARKET

Offers Farmers Free Space in Gardner Block to Offer Produce for Sale Direct to Buyers

### ASKED TO NOTIFY THE CLUB

A Decisive Step Toward the Establishment of Public Market, Farmers Clubs Notified

In a letter to Farmers Clubs of the county, Senator George H. Gardner of Brainerd takes a decisive step in the establishment of a public market in Brainerd. His letter follows: "Recognizing the necessity of Municipal Public Markets the Public Safety commission of the state of Minnesota advises the establishment of such markets in the municipalities of this state. And believing that it is the desire of the consumers of Brainerd that they have an opportunity to deal directly with the producers, I therefore wish to announce: That from and after August 25, 1917, free space in the Gardner block on the corner of Fifth and Laurel streets across from the Farmers' rest room in the new city hall building in the city of Brainerd, Minnesota, is offered to the farmers of Crow Wing county for the purpose of disposing of their produce directly to the consumers. This is a step towards the establishment of a public market and all farmers who desire space kindly communicate with the undersigned. This is an unusual opportunity and there should be a co-operation upon the part of all farmers to make this a success. A suitable person will be in attendance to assist in the arrangement of spaces. It is the desire that this information be communicated to the members of your club."

## WASTE PAPER SHIPPED SOON

Chamber of Commerce Preparing for Car Shipment on Thursday, Aug. 23 from Warehouse

### IN FITGER BKG. CO. BUILDING

Paper Must be Securely Tied, Free from Dirt and Weighed, Bill Left with Secretary

The car for the shipment of waste paper under the direction of the Chamber of Commerce has been ordered for Thursday, August 23 and the warehouse, the Fitger brewing company building on Front street, will be open at 9 a. m. on that date for receiving paper.

Shippers are expected to load their paper into the car and it must be securely tied or baled, free from all dirt and foreign matter and the magazine and book paper separated from the mixed stock or newspapers, paper boxes, etc; which make up this latter stock.

**Fill Weigh Bill**  
All paper must be weighed and the bill left with the secretary of the Chamber of Commerce in order that the same may be properly listed and the approximate weights of the car lot secured. The committee reserves the right to make such reductions in weights as the net weights from the purchaser of the car lot make necessary. It is not probable that the weights taken here will be exact with those made at the point of shipment, although the last shipment did not vary materially.

**Must Co-operate**  
It is impossible for the committee to devote time to loading the car and because of the scarcity of labor it is imperative that those who ship arrange to have their stock loaded in the car. This will take little time and where all assist, will be no hardship on any one.

Please be prompt in bringing paper to the warehouse on Thursday and see that it is delivered in good shape, otherwise it cannot be accepted. All merchants having paper to ship are invited to send it in.

### KARHUNSAARI WON

Brainerd Wrestler Threw Ollie Olson of Carnival Company in Two 18 Minute Falls

Henry Karhunsari, Brainerd champion wrestler, came from North Dakota Friday and on Saturday evening threw the carnival champion, Ollie Olson in two straight falls of 18 minutes each.

The first was secured on a toe hold, the second on a hammerlock.

### Has Recovered Her Health

So many women suffer from similar afflictions that this testimonial from Mrs. Laura Beall, Plattsburg, Miss., will be read with interest: "I got in bad health. My left side hurt all the time. I took doctor's medicine, but it did me no good. I took two bottles of Foley Kidney Pills and I feel all right now." H. P. Dunn, druggist.—Adv.

### NO TAIL LIGHTS

Chief of Police John D. Gile Hauls 14 Offenders over the Coal on Carpet this Morning

The carrying of tail lights on automobiles seems to be a dead letter with some drivers. Sunday night Chief of Police John D. Gile kept tab on cars and this morning had 14 car owners on the carpet in his office and gave them a lecture. Tonight there will be no more lectures, arrests and fines to be dealt out.

"Inspect your lights before you start," said the chief. "Have your batteries attended to. See that the connections are all right. Follow the law and you will not get into any trouble."

## EXAMINE 200 DRAFTED MEN

Dr. Walter Courtney and Dr. John A. Evert Passed on Eighty Men This Morning

### THE COURT ROOM IS CROWDED

Crow Wing County Asked to Certify to 10 Per Cent More Than Regular Quota of 233

The second call for 200 drafted men for physical examination brings 100 to the court house Monday and 100 more Tuesday. Eighty were examined this morning by Dr. Walter Courtney and Dr. John A. Evert. Many of the men were from the range and dozens of cars were parked about the court house.

The county's quota is 233 men and the state board ordered 10 per cent more called to allow for shrinkage when the men may be discharged at the mobilization camps or occupational exemptions may be allowed by the district board at Duluth.

The men disrobe in an ante room of the district court chamber, are examined in groups of ten or twelve in another ante room. In the large court room are seated the men summoned for examination.

### At the Best Tonight

The fame of Rex Beach as a writer of stirring, red-blooded tales, with snap in every sentence and punch in every paragraph is world-wide.

His wonderful stories of life in the Northwest sell by the hundreds of thousands, and are read in book form, in newspapers and in magazines by millions of people.

His most vigorous, swift-moving and widely popular story is "The Barrier"—presenting the absorbing problem of "the barrier" of race and blood that seems to lie between the lovers.

Its convincing realism and vivid dramatic qualities are due to the fact that it is a record of the things Rex Beach himself saw and took part in when the lure of gold and the thirst for adventure drew him to the Klondike.

This was the last American frontier—here civilization and lawlessness met and fought their final great battle for supremacy. Here Rex Beach met in the flesh the wonderfully clear cut, vividly portrayed characters of "The Barrier"—the old trader with his tragic past; the winsome Neela, daughter of Nature; the heroic commander of the little army post; the red-handed gambler and "killer" and the quaint, lovable "Poleon of the Great Heart."

The photo-drama of "The Barrier" represents the most forward step in motion pictures. In this epic of primitive life the picture comes into its own as a medium of dramatic expression.

In "The Barrier" you see life as it is—you forget that a picture is passing before you—you are stirred to the same depths, and lifted to the same heights, as if you stood in person among the scenes it so faithfully reproduces.

The adventure thrills you—the beauty of the love story grips your heart.

Literally every one of the thousands who have seen "The Barrier" have called it the "greatest motion picture ever made." Its run at the Broadway Theatre, New York City, proved a sensational success. It is a great picture—a fascinating picture—an epoch-making picture.

### Men's Club

The Men's Club of the Norwegian-Danish Lutheran church will meet at the home of A. D. Pederson Tuesday evening.

## "COMFORT KIT" DANCE TONIGHT

People Asked to Voice Their Sentiments Against the Kaiser by Attending Dance

### HELP THE BOYS IN THE FIELD

To Provide Little Comforts for the American Soldiers, be at Lum Park This Evening

Every city, town and village of America, and specially of Minnesota, is busy these days giving patriotic meetings and Red Cross benefits such as dances and shows. Ever since the "Kaisers" meeting at New Ulm, Minnesota's people have been very active. This blot on the patriotism of this great state is being wiped out by the biggest outbursts of patriotism that the people of the state have ever shown. Over 50,000 took part in the patriotic program at Minneapolis last Friday. Forty thousand were in attendance Saturday at the fair grounds at Midway to see the "Battle of Vimy Ridge." Bemidji and Anoka report overflow crowds at their patriotic meetings. Detroit declared a holiday and after a parade and several speeches had a military ball. Princeton has announced a big rally for this week. Staples had a rally Sunday.

Tonight Brainerd moves and gives the people a chance to voice their sentiments against the "kaiser." Every one can attend the Red Cross benefit dance at Lum Park. The money realized from this dance will be turned over to the "Comfort Kit" society to be used in supplying little comforts for the American soldiers.

Don't wait, thinking that there will be enough without you, but be there and meet the other fellow too. Tickets have been placed at seventy-five cents and if you haven't got one—see that you get one.

### BE THERE!

## BADLY HURT IN CAR ACCIDENT

Goodwin B. Olson, son of Mrs. Hannah Olson, was severely injured Sunday morning in an auto accident near the Standard Oil filling station corner Front and Broadway, when a car driven by a woman ran into him and squeezed him between the rear of his car and the front fenders of the second car.

Olson was filling the tank of his car. The Hibbing car driven by the woman collided with the standing car in broad daylight Sunday morning when she had the whole street to turn around in.

Olson was taken to the Northwestern hospital. His left leg is wrenched at the knee cap and besides he may have sustained internal injuries.

### SUCKER HEADS SHOWN

Game Warden Claims that the Heads and Offal were not Those of Trout but Other Species

Game Warden A. P. Cardie exhibited at the Dispatch office this morning a quantity of fish heads which he said had been taken from the place indicated in the Dispatch article of Friday as the spot where innumerable trout had been cleaned up. Mr. Cardie said the heads were those of suckers and that the statement of the wholesale slaughter was erroneous.

"I called upon the gentleman who gave out the information and secured from him the location of his find and here is the evidence."

Mr. Cardie will send the specimens in to the game commission and in the meantime a thorough investigation will be given the matter, and if no trout were taken in the manner indicated by the Dispatch informant the information will be given to the public through these columns.

The Dispatch is interested in seeing that wholesale taking of fish in an illegal manner is stopped and for no other reason was the matter given publicity, and if there are any additional features the public will be acquainted with the facts.

### CHILDREN DESERTED

Chief of Police John D. Gile Plays Part of Good Samaritan to Size-land Little Ones

Chief of Police John D. Gile was called to the Thomas Sizeland home on South Tenth street where he found three small children, ages ranging from 3 to 12, deserted and about starved to death.

He went home and brought back provisions for the little ones. Their father died some months ago and the mother is said to have left the children.

## ELKS PICNIC AT MILLE LACS LAKE

To be Held Sunday, August 26, in the Vicinity of St. Albans on West Shore of Lake

### A LARGE CROWD IS EXPECTED

Brainerd Lodge Expects Elks and Families from a Radius of Fifty Miles Near City

The Elks' annual picnic will be held near St. Albans on the west shore of Mille Lacs lake on Sunday, August 26, and the committee, Wm. V. Turcotte, B. L. Lagerquist and Al Mraz were at the grounds and have made every arrangement looking to the comfort of the guests.

All families attending are to take their picnic baskets along. The committee will furnish lemonade and coffee.

Charles Barnard, owner of St. Albans' summer resort, is having the grounds cleared and arranged in ideal shape for the coming picnic. Roads are in fine shape and hundreds of cars will make the trip.

Brainerd Lodge has Elks within a radius of fifty miles from Brainerd. Some reside in Staples, Aitkin, on the range and other points near Brainerd and all have given assurance of their attendance.

### For Market Day

A meeting of the several committees on markets has been called to meet at Chamber of Commerce rooms Tuesday evening, Aug. 21 at 8 o'clock to thresh out the whole question and decide whether to push ahead, postpone or drop further consideration for this season.

P. B. NETTLETON, Chairman, C. of C. Special Com.

### Feel Worse After Vacation

The change from outdoor activity of vacation time to the quiet of regular employment sometimes makes one feel heavy and "stuffed up," uncomfortable and bilious, with a mean headache and coated tongue. Foley Cathartic Tablets give prompt relief from these results of indigestion. Mild and gentle, but sure. H. P. Dunn, druggist.—Adv.

## ELDER TRIAL AT CITY HALL

Sessions Resumed on Monday Afternoon, Court House Given Over to Drafted Men

### N. B. ARNOLD ON THE STAND

Duluth Attorney had Done Much Investigation Work in Kooch-iching County

The trial of George A. Elder, Duluth bond broker charged with trying to influence the official actions of County Treasurer Fogarty of Kooch-iching county, was resumed Monday afternoon in the municipal court chamber of the city hall, Judge W. S. McClenahan presiding.

The regular district court room has been given over Monday and Tuesday to the 200 drafted men called for physical examination.

When district court took a recess

Friday afternoon it was done on account of the death of a sister of Juror Harry Grimes of Fort Ripley. N. B. Arnold, Duluth attorney having charge of much of the investigation work in Koochiching county, was last on the stand and his testimony was resumed at the Monday session of court.

### ROLL OF HONOR

Sergt. Frederick J. Miller of Pine River is home on a furlough to September 1.

Two Pequot men, Ray E. Barnard and James L. Richmond, enlisted in the field artillery Monday, their applications being taken by Corporal Raymond Lowery.

First Lieutenant Ralph J. Quinn has received his commission and new uniform. He is in the signal corps.

HORSES BOUGHT, sold or exchanged. Always have from 10 to 15

# OPEN BREACH IN TEUTONIC LINES

British Forces on Ypres Front Push Forward.

## HOLD NEWLY WON POSITIONS

Preparations Are Under Way for Another Big Drive in Lens Region. Germans Feeling Out Strength of the French Lines in the Vosges Mountain Region.

London, Aug. 20.—Smashing 500 yards into the heart of the German line and inflicting heavy losses on the enemy the British forces on the Ypres front have made a new advance, which, in connection with recent gains, opens a wide breach in the German front.

The work of consolidation of newly won positions has taken up the past few days on the Lens battle line and preparations are now believed under way for another drive in this sector.

The Germans have been feeling out the strength of the French lines in the Vosges mountain region, where, after heavy bombardments, they delivered unsuccessful attacks against the French around Badonviller and north of Xcelles-Sur-Plane.

Likewise along the Aisne front and in the Verdun sector along the banks of the River Meuse a continuation of the attempts by the German crown prince to break the French lines met with the usual result—failure.

The armies of the allies are working havoc with the German fliers and on German positions far behind the lines.

## Numerous Clashes in Air.

In fights in the air Saturday the French airmen accounted for seventeen German aircraft and the British fliers seven, which were destroyed or forced to land inside the Teutonic lines, battered from machine gun fire. Eight British machines failed to return to their base.

In aerial raids behind the lines, allied machines have bombed numerous towns, railway stations and cantonments, the raids extending as far as Sel Zaete, near the Dutch border, eighteen miles from Ghent, which also received a visitation.

American aviators belonging to the Lafayette squadron took a prominent part in the French raids and performed notable execution.

There has been a considerable stiffening in the front in Roumania and also in Russia. In the region of Vilna, south of Grozechni, Southern Moldavia, the Russians have made a stand against attacks of the Teutonic allies and repulsed them and in the Slavic sector also have beaten off attempts by the invaders to take further ground. In the Lake Naroc district of the Vilna front the Germans endeavored to twin Russian trenches, but their attack broke down under the Russian barrage fire.

## PREDICTS BIG OFFENSIVE

Russian General Says Army Is Recovering Its Morale.

Petrograd, Aug. 18.—Lieutenant General Korniloff, the commander-in-chief, in an interview said that in consequence of energetic measures taken the morale and fighting capacity of the army had been considerably strengthened. He hoped for complete regeneration of the Russian forces.

The general predicted operations on a vast scale on the Roumanian front and also elsewhere, especially in the north, where he indicated there was a possibility of combined land and sea actions.

## Handy Candlestick.

An ingenious method of using a candlestick in the cellar, instead of the untidy method of sticking the burning candle to a shelf or ledge by melted wax, is to screw the candle into a heavy butt. Such an improvised candlestick prevents upsetting, and the candle can burn down and out without danger of fire.—American Boy.

## Will Never Be Without It

No other cough medicine "reaches the spot," heals, soothes and relieves irritating, hacking coughs like Foley's Honey and Tar. Mrs. John Bournville, Brussels, Wis., writes: "I've been using Foley's Honey and Tar Compound for years and recommend it for children. I will never be without it in the house." H. P. Dunn, druggist.—Adv't. mwf

JOHN M. BAER.

North Dakota Representative  
Elected on Peace Platform.

Photo by American Press Association.

Mr. Baer is the youngest male member of the national house, being only thirty-one; also he is the only cartoonist in congress. He was elected by the Nonpartisan league, which advocates peace, and his maiden speech in the house was a request that the United States define its exact aims in the war.

# STEAMSHIP OFFICIAL HELD AS GERMAN SPY

New York, Aug. 20.—H. S. Ficke, auditor in New York of the German Lloyd Steamship company, who continues to draw \$540 a month from that company, is in custody of a United States marshal. He is alleged to be a German spy.

Ficke has a fine home on Staten Island, not far from Fort Wadsworth.

From the veranda of his home it is possible to see any ship that sails from New York.

While the United States marshal was on Staten Island other government agents went to an apartment in Manhattan, known as "the City and Suburban Home," and arrested a man whose name was said to be Dr. John Harba. While guarding the apartment two other men came in who were arrested.

The arrest was one of the results of the countrywide investigation that was ordered following disclosure that the German government was able to get advanced information as to the sailing, not only as to the first army division to France, but also of the departure and secret destination of the destroyer flotilla ordered to European waters.

\*\*\*\*\*  
WOMEN TAKE MEN'S PLACES IN CHICAGO BANK.  
\*\*\*\*\*  
Chicago, Aug. 20.—Indicative of the extent to which women are being used to replace men called to army service is the announcement by a local bank that 200 women are now employed there to do the work of men who are on military duty. Chicago banks in general are said to be following a similar practice.  
\*\*\*\*\*

## FOR FAILING TO REPORT

Drafted Men Will Be Punished as Deserters.

Washington, Aug. 20.—Renewed instructions that drafted men who fail to report for service will be classed and punished as deserters were sent to United States district attorneys and agents of the department of justice by Attorney General Gregory.

Provost Marshal General Crowder has ruled that persons who neglect to appear for examination will be accepted automatically and that the privilege of claiming exemption will be denied.

It was to help carry this policy into effect that the attorney general acted.

## Would Curb German Press.

Lincoln, Neb., Aug. 20.—The state council of defense of Nebraska, in a statement made public, strongly condemns the German language press in this country for an alleged promulgation of anti-American propaganda and calls on congress to enact laws that will curb the editors of the papers if the present laws are not sufficient to deal with the matter.

## Harvest Hand Murdered.

Billings, Mont., Aug. 20.—The body of Karl Heiman, a harvest hand from North Dakota, was found under his wagon, near Columbus, forty miles west of here, with the skull caved in. A sheriff's posse is seeking a man with whom Heiman is declared to have been seen at Columbus. They said they were traveling to Oregon.

# TO ENFORCE LAWS A HUGE PROBLEM

Must Supervise Mode of Life of 100,000,000 Persons.

## TO USE MORAL SUASION

Drastic Steps Will Follow if People Fail to Save Food, Economize on Supplies and Otherwise Conserve Resources of Country—If War Is Prolonged We May Have Military Law.

By ARTHUR W. DUNN.

Washington, Aug. 20.—[Special.]—The most difficult problems which confront the managers of the war in this country are to enforce all the laws passed by congress and aid Mr. Wilson in exerting the powers granted him in time of war. To meet all the requirements of the present and coming conditions it will be necessary to supervise the activities and mode of life of more than 100,000,000 people, and that is no small task.

Much will be attempted by moral suasion, by invoking the voluntary aid of people to save food, economize on supplies and otherwise conserve the resources for the war. But voluntary economy will not suffice. There are too many people who will pay no attention to appeals of officials. There are too many people also who are trying to make money out of the war who will not be controlled by anything but positive force.

## Under Military Law.

If the war is prolonged and the United States is compelled to do all that is expected by the allies the time is not far distant when the country must go under military law. Waste and extravagance will be curbed by government officials. Speculators will be under a regime of price fixing. All commodities will have to be controlled and doled out as necessity demands.

It was Senator Lewis of Illinois, often the spokesman for the administration in the senate, who said he was willing to "Prussianize America in order to defeat Prussia." We may have to go under the rigid German rules in order to succeed and furnish food and munitions to the armies and to the allies in Europe.

## That Will Be Difficult.

Everybody who has anything to do with the war looks forward to drastic action with misgivings. It is well known that any curb upon the individual has always been irksome to him. Liberty is more than a catch word. To dole out to each person a ration and to fix the prices of all commodities are such giant tasks that it is no wonder that our officials hope that people may be persuaded to do what is required of them rather than compelled.

## Asserting Their Patriotism.

Many communities, from states to municipalities, have felt impelled to assert their patriotism and show that they are staunchly standing by the government. All this ought to be satisfactory even if it ought also to be unnecessary. During the Spanish war it is doubtful if there was a single note which called for challenge of loyalty. There were many people who believed that that war was unnecessary, but there never was any question of loyalty of all the people to the United States. We did not then hear charges of treason nor men called "copperheads" in the debates in congress.

## Too Enthusiastic.

There have been amusing comments made about the overenthusiastic government official who got out a circular urging people to cease joy riding in order to save gasoline. He must have been unaware that such form of recreation is practiced by nearly everybody "higher up" in the government. Official motors are going far and near every evening carrying those who work on government problems by day. Possibly the warning was intended for people outside of Washington.

## Lewis Commends Smoot.

Senator Lewis of Illinois was making a speech and made reference to the cost of the war as shown in figures presented by Senator Smoot of Utah. In doing so he remarked, "However much I differ from him in the doctrines of politics, as a mystical, magical, metaphysician of statistics no one can dispute him."

Lewis was interrupted by laughter from all parts of the senate, in which Smoot heartily joined.

## New's Blunt Opinion.

Just before the food control bill passed Senator New of Indiana bluntly expressed this opinion: "If the truth were known there are not ten members of the senate—let us confess it—who actually believe in this bill. I do not think there are that many who believe that the bill is going to work out as its sponsors have sought to make the people believe and with great success."

And no one rose to challenge the statement.

## Can Make Trouble.

Senator Jim Reed of Missouri is a capable man. He is untiring, and talk comes easier to him than to almost any man in the senate. He is capable—as one senator put it, "He is capable of making a lot of trouble before his term ends more than five years hence."

Reed's undaunted courage and independence are equaled only by his determination to express his opinion at any and all times.

# MOVING A BIG ARMY

Transporting Troops In Time of War Is a Gigantic Task.

## A WORK OF INFINITE DETAIL.

What It Would Mean in Railway Cars of Various Kinds and in Supplies and Equipment to Carry a Million and a Half Men Across the Country.

Before a body of troops is entrained the time and place of every move are mapped out, including the date and place of arrival, route, assembly point, time of troops leaving assembly point, route of assembly point to train, time of arrival at station, time of boarding train, time of departure of train, rate of travel over each section of route, time and place of feeding troops and animals and a schedule showing the assignment of troops and equipment to each car. Aside from this are countless details connected with procuring supplies, the disposal of troops and their care.

All these preliminary arrangements must be made by an officer of the quartermaster corps. The first thing to be done is to procure lists with weight of all property to be shipped, obtain this material and make out the bill of lading. This, with the number of men and officers, constitutes a basis on which he estimates the number and kind of cars needed. He then engages the cars and provides loading facilities, such as material for blocking and lashing, and constructs necessary ramps, or runways, for entraining animals or wagons.

Next, on the arrival of the cars, he inspects them from a thousand major and minor angles. All cars must be clean. Passenger cars must be fully supplied with water and ice, sufficiently lighted and heated and all other appearances in proper condition. Stock cars come in for special attention.

Then the number of men or kind and quantity of supplies allotted to each car is marked on the side or steps, together with the name of the organization. In loading men three are assigned to each section in tourist sleepers or three to each two seats in a day coach.

Another important point is to keep the troops of each unit with all equipment together. This is important in case of sudden attack. Imagine the fate of a unit of troops suddenly derailed at the firing line without equipment!

A possible element of delay lies in the timing of the arrival of troops at the station. There must be no time lost by cars waiting for the troops. The facilities for loading animals and wagons at each station on each route should be part of the quartermaster corps' records. Quick and noiseless loading and unloading of animals without confusion are an art in themselves. Dispositions of individual animals must be studied. Gentle animals should be placed opposite doors and therefore loaded last.

The time of loading and unloading has been carefully tabulated and should not exceed the following: Infantry, one hour; cavalry and light artillery, one and one-half hours; heavy artillery and engineers with bridge train, two hours. All movements, loading, entraining, detraining, feeding and watering and exercising men and horses, are made in military fashion.

With each train kitchen cars are provided. Otherwise baggage cars are fitted up by troops or arrangements made for procuring meals, or at least liquid coffee, at stations en route. Feeding of men and animals is in itself no small matter.

Say the war department was called upon to transport twenty field armies of 82,000 men each, or 1,640,000 men. In moving such a military force the railroads must carry, besides the 1,640,000 men, 700,000 mounts and draft animals, 60,000 vehicles and 3,300 big guns.

To accomplish this the quartermaster corps must have available at the right points 42,300 passenger coaches, 7,700 baggage cars, 21,100 box cars, 37,980 stock cars and 15,500 flat cars, making a total of 124,580 cars, or 7,320 trains with as many engines.

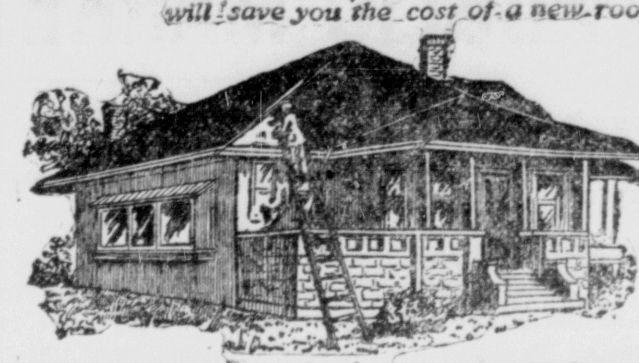

Here is the government's minimum estimate of the gross weight of materials needed each month by this force of 1,640,000 men: Rations, 250,630,400 pounds; ammunition, 7,046,160 pounds; forage, 623,147,000 pounds; general quartermasters' supplies, 33,794,440 pounds; clothing and equipment, 22,680,340 pounds; ordnance supplies other than ammunition, 1,622,740 pounds; engineers' supplies, 12,208,320 pounds; signal supplies, 9,043,260 pounds; medical supplies, 597,160 pounds; candy and tobacco, 319,680 pounds, making a total of 981,089,100 or nearly 1,000,000,000 pounds. The transportation of this enormous weight would require fifty-five trains of thirty cars each day as long as the force was in the field.—Leslie's.

## To the Ladies.

Ladies, if you love a man marry him. If you marry him know him. If you know him study him. If you study him humor him. If you humor him flatter him. If you flatter him you will humor him. If you humor him you will study him. If you study him you will know him. If you know him you may divorce him.—Life.

Do not make deposits of carelessness in the bank of misery.

Saving the Cost of a New Roof  
A single application NOW of  
**VALDURA 99.5% PURE ASPHALT PAINT**  
will save you the cost of a new roof later.

Whether your roof be "Rubber", Felt, Composition, Tin, Iron, Steel, or Shingle, VALDURA will do the work quickly, perfectly and with real economy. Our flat guarantee stands back of every drop of VALDURA—it must.

serve you properly or purchase money will be refunded.

**VALDURA 99.5% PURE ASPHALT PAINT**

There is no tar in VALDURA; it is a strict 99.5% pure mineral asphalt paint. A few dollars' worth used on your Farm Machinery, Implements, Fencing, etc., will save you hundreds of dollars in their added life. We have some interesting literature on VALDURA we would like to give you and a sample of the paint itself for your test—all without cost. VALDURA is very easy to apply and it can be used in any season. It is the paint to use—When you want sure results.

**Do Something Better Than the Other Fellow---**

**and ADVERTISE**

Advertising cannot accomplish the impossible any more than barren ground can yield rich crop.

But how advertising does make things hum when the product and proposition are right, the men and methods above board, when there's an honest purpose and earnest effort from bundle boy to general manager to serve efficiency, to deal honestly, to sell good goods, to price fairly.

Oil up the machinery of your business, imbue your organization with the spirit of true service, make your business worthy of the good will, the confidence, the patronage of the people.

In this fertile field then sow the seed of advertising and it will bring forth abundant crops in increased business and augmented prestige.

Your store news in the Dispatch will be read in practically every home in Brainerd and vicinity every evening.

# PRINTERS' INK

Has done more towards nursing a sick or stagnant business than any known remedy. To get the desired results one should learn the real value of this great commodity and its relative merits when employed in the right way.
